

# Supplier Compliance Policy

 | **Version:** 1.0 | **Issued On:** July 21st 2025 | **Next Review Date:** July 21st 2026 |

## Introduction

At InjectionPower Srl, we value strong partnerships with our suppliers. This policy outlines key compliance guidelines to ensure we meet legal and customer requirements together. It is designed to support mutual success and maintain the high standards our customers expect. By working together, we can ensure that the goods and services provided align with applicable regulations and customer needs.

## 1. Legal and Regulatory Compliance

Suppliers are expected to ensure that all goods and materials provided to InjectionPower Srl comply with applicable legal regulations, including but not limited to:

- **REACH** (Registration, Evaluation, Authorization, and Restriction of Chemicals)
- **RoHS** (Restriction of Hazardous Substances)
- **SCIP** (Substances of Concern In articles as such or in complex objects (Products))
- Any other relevant local, national, or international regulations.

Suppliers are responsible for staying informed about changes to these regulations and ensuring ongoing compliance. If you have questions about specific requirements, please contact our Compliance Team at [procurement@injectionpower.com](mailto:procurement@injectionpower.com).

## 2. Documentation Requirements

To maintain transparency and ensure compliance, suppliers may be required to provide the following documentation upon request:

- Material declarations.
- Certificates of compliance.
- Safety Data Sheets (SDS).
- Test reports or other relevant certifications.

These documents help us verify that the goods and materials provided meet legal and customer requirements. If providing such documentation is challenging, please let us know so we can work together to find a solution.

### 3. Customer-Specific Requirements

In addition to legal compliance, suppliers must adhere to any specific requirements communicated by InjectionPower Srl to meet customer obligations. These may include:

- Providing information for SCIP database submissions.
- Adhering to customer-defined material restrictions.
- Supporting audits or reviews requested by our customers.

We will communicate any such requirements clearly and work with you to ensure they are met.

### 4. Continuous Improvement

We understand that compliance can be complex, and we are committed to supporting our suppliers in meeting these guidelines. If you encounter any challenges or have questions about this policy, please reach out to our team. Open communication is key to ensuring mutual success and maintaining a strong partnership.

### 5. Acknowledgment

By continuing to work with InjectionPower Srl, you acknowledge that you have reviewed this policy and will make reasonable efforts to align with its guidelines. We appreciate your partnership and look forward to continued success together.
